## A. Published on Bulletins of Taichung D.A.I.S. in Nos. 38~41:

- 1.Chen, C. W. and Y. F. Tsai. Investigation on the Status and Willingness of Utilization of Organic Fertilizer in Central Taiwan. 38:1-10.
- 2.Chang, D. C. and C. C. Chen. Population Fluctuation of Major Insect Pests on Kidney Bean and the Proper Time of Control. 38:11-22.
- 3.Long, G. W. and Y. S. Tien. Performance and Economic Benefit Research of a Turnplate Type Manure Spreader. 38:23-36.
- 4.Huang, H. C. and Y. F. Tsai. Effect of Application Rate of Hog Manure on the Growth and Yield of Spinach and Leaf Lettuce. 38:37-43.
- 5.Hu, C. H. Historical Review of Semidwarf Rices and Breeding of A New Plant Type for Sustainable Agriculture. 38:45-63.
- 6.Liu, T. S. and W. J. Wang. Control Effect of Some Common Miticides Against Two-spotted Spider Mite, *Tetranychus urticae* Koch. 39:1-15.
- 7.Lin, C. H. A Study on Preparation of Composts from Used Mushroom Culture Medium. 39:17-27.
- 8.Hsieh, C. F. and K. N. Hsu. An Experiment of the Organic Farming of Sweet Corn and Vegetable Soybean. 39:29-39.
- 9.Lee, J. F., S. S. Chen, A. N. Hsu and S. Song. Effects of Management for Soil Moisture Regime on Growth and Quality of Rice During Grain Filling Stage. 39:41-50.
- 10.Lin, H. S., J. H. Lin, L. R. Chang and C. H. Lin. Effects of Plant Growth Retardants on the Growth Habits of Shinseiki Pears. 39:51-59.
- 11.Liu, T. S., W. J. Wang and C. J. Chen. The Use of Some Plant Nutrients for the Control of Mites. 39:61-71.
- 12.Wang, W. J. and T. S. Liu. Control Effect of Some Common Miticides Against Kanzawa Spider Mite, *Tetranychus Kanzawai* Kishida. 40:1-8.
- 13.Tsai, Y. F. and C. W. Chen. The Effect of Dairy Compost on Crop Production and Soil Characteristics. 40:9-16.
- 14.Lin, C. Y. The Occurrence of Sorghum Ergot Disease Caused by *Claviceps sorghi* in Taiwan. 40:17-28.
- 15.Lin, T. F. Resistance to Stem Borer (*Chilo Sappressalis*) and the Performance of Agronomic Characters of Newly Developed Indica Rice Lines. 40:29-36.
- 16.Lin, T. C. and S. H. Chuen. Utilization of Waste Mushroom Compost for Tomato Production. 40:37-44.

17. Ko, C. T., C. C. Chen and H. L. Liu. Survey on the Occurrence of Insect Pests on Vegetables under Pipehouse in Central Area of Taiwan. 40:45-54.
18. Liu, H. L. Survey of the Diseases of Vegetables Under Structure in Central Taiwan. 41:1-9.
19. Ho, J. H. and T. S. Liu. Development and Application of Auto-control Hot-water Treater 41:11-19.
20. Fang, M. N. Population Density and Control of *Frankliniella intonsa* on Pea. 41:21-32.
21. Chen, C. C. and W. L. Huang. Purification, Partial Characterization and Serological Properties of Rice Stripe Virus. 41:33-41.
22. Lin, C. S. Tolerance of Twelve Rice Varieties Against *Xanthomonas Campestris* pv *Oryzae*, Bacterial Leaf Blight Pathogen. 41:43-54.
23. Chiu, C. C., M. L. Hseu and L. S. Hsu. Field Observation on the Use of Sex Pheromone to Control *Spodoptera litura* on Soybean in Indonesia. 41:55-63.
